Many states have "hidden" laws that only apply to contractors. Some contractors learn of these laws from colleagues, but too many contractors only learn of them after being confronted by an aggressive state investigator. This section ensures that you are aware of the "hidden" laws that affect your business BEFORE problems occur.

*Note: Guides provided by NAPAC are for general informational purposes only and do not constitute legal advice. Rules and requirements pertaining to the contracting industry are subject to change by the State from time to time. Please consult with experienced legal counsel prior to undertaking any contracting activities.*
